

# Guide

## ***Guide to die-cut sticker sheets***

### Your file must include:

-  1- A rectangle with a pink border that is the actual size of your board
-  2- The graphics should be kept in black only on a white background, regardless of the desired color

### Useful Information

- The maximum size of a board is 30 x 40 cm, portrait or landscape orientation as desired
- Stickers must be at least 1.5 mm away from each other and from the edge of the board
- Stickers must not contain any element thinner than 1.5 mm
- All white areas will be cut out, and a transfer film will be provided with your board

***Example of the expected file***
